Senior Frontend Engineer

ABOUT ME

Senior Frontend Engineer specializing in JavaScript technologies, mainly Vue.js, Nuxt.js, React, Next.js and TypeScript. Before switching to software engineering, I gained 12+ years of experience in the tech industry as a Program Manager and a Technical Writer. This makes me stand out among other engineers due to strong communication, planning, and organizational skills. If you're seeking an engineer who not only delivers high-quality code but also collaborates seamlessly with colleagues in non-technical roles, I believe I would be an excellent fit for your team.

EXPERIENCE
